

Questionnaire

Resume: The purpose of this document aims to present the questionnaire that will be provided to the contractor who will conduct analysis of Aldeia Nova Esperança, which is located in the Yawanawa territory where the project will take place. The main objective is to provide guidelines for data collection, which will be converted into impact indicators. The questions are related to the families living in the village, but the goal is to provide metrics to feed the Impact indicators, which are related to the project.

Solar Panels

- How many solar panels have been installed?
- Are there houses with panels already installed? How many?
- How many houses have solar panels?
- How many people have access to electric/solar energy?
- How many individuals are trained to maintain the solar energy infrastructure?
- What is the potential energy generation from the installed panels (in kW)?
- How much energy is generated by the solar systems?
- Energy generated before and after the installation of the equipment.

Artesian Wells

- How many wells have been constructed?
- Were there wells constructed before?
- Water capture before and after the project.
- What is the potential for water capture/storage? Before and after the construction.
- How many water purification systems are in place?
- Were there purification systems previously built?
- What is the filtering capacity? Capacity before the project?
- How many people/families/houses have access to clean water?
- How many individuals are trained to maintain the infrastructure? Capacity before the project?

Electric Boats

- How many electric boats are there?
- How many motors?
- How many batteries?
- How many engine rooms and equipment houses have been built?

- How many people have access to alternative river transportation?
- How many individuals have been trained for preventive maintenance of the river fleet?
- How much fuel has been saved? In liters and in values.
- How many people had access to river transportation before the project?

School and Cafeteria

- How many Yawanawa teachers work at the school?
- How many Yawanawa teachers will be hired to work at the school?
- How many Yawanawa individuals will be employed in the project?
- What is the establishment's income?
- How many children attend school?
- How many children will start school after the project?
- Are there establishments that employ residents?
- How many people are employed?
